Dear Hames,

Thanks for your 5/28 and the enclosures.

I've just finished a lengthy manuscript/expose of Posner's prostotution, except for the conclusions and the foreword. Can't be publidhed but will be a record for history.

After it is retyped, eventually Hal will have a copy.

"opefully, I'll have no more writing on that.

But if you see anything that is worth keeping for people in the future, I'll still appreciate a copy because all of this will eventually be a free public archive at local "ood College.

I have a real problem with that "uby note in the Ray car, but about the EBI's SAC in ATlanta then, he was pretty poor, Perjurer, too.

Thanks, and best wishes,

Harold Weisberg
